

State farmers to dump milk today

Over 40 lakh dairy farmers in the state will dump milk on August 1 to draw the state government's attention to shortfalls in procurement and to press for their demand of a Rs10/litre subsidy to each farmer. **Retailers and distributors reported no shortage of milk in Mumbai.** "We are getting our normal quota of major brands and varieties. Some dairies whose production was marginally lower following lockdown are also sending milk," said a distributor from Andheri (W). Amul managing director R S Sodhi said they were not facing a shortage in collection or distribution. TNN
